Total cost of equipment listed, CIF \_\_\_\_\_ **US\$4,009.00**

---

A standard Wantok radio rebroadcast system shall consist of:

1 - two element FM receive antenna c/w U clamp mounting hardware,

1 - length of RG59 co-ax receive cable c/w connectors and appropriate filters,

1 - FM receiver unit and power on/off relay circuit housed in a weather proof container.

Adequate instruction manuals for installation are included. Please read before assembly.

---

**Terms & Conditions**

---

If the purchaser has no relay transmitter, a separate quotation for a 12 Watt or 30 Watt relay transmitter will be provided. Wantok Ent. Ltd. will not guarantee switching > 30 Watts.  
(See above Optional Items).

---

The purchaser will be required to supply power and power cable from the power source to the receiver relay unit and the transmitter at 13.8 Volts DC for proper operation.

---

If a transmitter is also requested, the transmitter will be set to whatever frequency you designate with your order.  
If no frequency is designated, the transmitter will be set to a mid band frequency and labeled.

---

A minimum of two frequencies are required, one for the master and one for the relay station, preferably well spaced.  
Frequencies must be specified in advance so that appropriate filters can be supplied with the order.

---

All regulatory compliance, Customs fees, brokerage fees or other charges levied by entry governments or other agencies are the responsibility of the purchaser, including release and clearance of all items through Customs.

---

Assembly of your system commences upon receipt of a firm purchase order. Shipment occurs upon receipt of payment.

---

Allow 4 to 6 weeks from date of firm purchase order to shipment of goods.

This quotation is good for a period of 30 days commencing \_\_\_\_\_.
